SKILLS

Backend	PHP 8 · Laravel · REST APIs · Livewire · Sanctum · Queues & scheduling · PHPUnit · Node.js
Frontend	Vue 3 · Nuxt · TypeScript · Tailwind CSS · HTML / CSS
Mobile	Expo (React Native) · NativePHP
Data	MySQL · MariaDB · PostgreSQL · Redis · SQLite
Integrations & AI	Google APIs · Claude Code (AI-assisted development)
Tools & deployment	Git / GitHub · Docker · Postman · Figma · Vercel · DigitalOcean · AWS S3
Also	Java · Python

EXPERIENCE

Full-Stack Developer — COMPLETED

Jun 2025 – Nov 2026

AWORK A/S · Copenhagen, Denmark · Kept on after the internship

Obiyen · Sole backend developer · SaaS · obiyen.com

- Owned the entire backend of an all-in-one platform for businesses: **authentication**, **role-based access** and **versioned REST APIs** with Laravel Sanctum.
- Integrated **Google APIs** for cookie consent and analytics.

Stack: Laravel, Sanctum, MySQL, Google API

CitizenOne · Full-stack developer · Healthcare · citizenone.dk

- Worked across the **Laravel 12 / PHP 8.2** backend (service–repository architecture), the **Nuxt** web app and the **Expo** mobile app of a journal system for managing citizen records.
- Built **repeating calendar events** (this / following / all), clash checks on every occurrence, email invitations and **scheduled reminders** via Artisan commands.
- Delivered an **employment-contract e-signing** flow with notifications, and **prescription-renewal requests** from the patient portal to a staff inbox.
- Created a **document-template library** (WHO-5, SCL-10) and fillable **KRAP PDF worksheets**.
- Added company-level **feature switches**, forced logout on new releases, and an age-aware **dental tooth chart** based on clinic feedback.
- Covered features with **PHPUnit feature tests**, translated into four languages (Danish, English, Swedish, Norwegian).
- Used **AI-assisted development** (Claude Code) daily.

Stack: Laravel, Nuxt, Vue.js, Expo (React Native), MySQL

Backend Developer (Freelance) COMPLETED

Jul 2026 – Nov 2026

Brthrs Café POS · brthrscafe.com

- Built the core of the **point-of-sale backend API** in **Laravel 13 / PHP 8.3**: database design, orders and payments, products and categories, with Sanctum authentication.
- Built the **CMS backend** behind the café's website.
- Packaged the POS as a **mobile app with NativePHP** and added **receipt printing**: PDF receipts and ESC/POS thermal printers.
- Worked with a frontend developer who built the Nuxt / Vue client.

Stack: Laravel 13, PHP 8.3, Sanctum, NativePHP Mobile, DomPDF, ESC/POS

Backend Developer (Freelance) COMPLETED

2025 – 2026

Columbia Business Machines · cbmi.com.ph

- Built the **CMS** behind their website, so the team can manage the **product catalog**, **branches** and company content without a developer.

Stack: Laravel, PHP, MySQL, REST API

Software Development Intern COMPLETED

Jan 2025 – Jun 2025

AWORK A/S · Copenhagen, Denmark

- Spent the first three weeks designing **awork.dk in Figma**: wireframes, UI design and **clickable prototypes** that recreated the site's animations and user flows.
- Joined the CitizenOne team and built a color-coded **Excel duty-schedule export** handling multi-day and overlapping shifts and 48-hour views.
- Built **statistics APIs** for incident reports, use of force and medicine deviations, with date and department filters.

EDUCATION

Bachelor of Science in Information Technology — GRADUATED
2021 – 2025

STI College of Davao · Davao City

Software development, networking and systems design.

Capstone: FlexiPOS. A point-of-sale system I built alone, from database design and backend to the till interface (Laravel, PHP, MySQL, Vue.js, Tailwind CSS).
